

A Champion for Wellstar: How you can bring our mission to life within our communities

Across Wellstar, we all play a role in being a champion for the organization. From advocating what's best for our people and the people we serve, to making important connections with partners or giving back to the system, every person's voice and talents are essential to the future of Wellstar.

Here are a few ways that leaders and team members across the system can be a champion for Wellstar:

GET INVOLVED

Wellstar has numerous community partnerships and programs that bring our exceptional care, services and experiences to more consumers throughout the state. To learn more about these programs and about how you can get involved, [please visit our Neighborhood Wellness page](#).

SHARE YOUR VOICE

Through advocacy at Wellstar, we can bring together the voices of all our leaders, teams and partners to make a difference for our system and the communities we serve. Advocacy is a team sport. Whether that's contacting your local elected officials on the priorities that you're passionate about or sharing the Wellstar story with your friends and neighbors, we want you to join the team. Your voice is essential to our success.

MAKE CONNECTIONS

You are some of our most powerful ambassadors to tell our Wellstar story and can connect to families, corporate leaders and community leaders to make an even greater impact. If there is a community program or partner that you feel would help Wellstar elevate our mission, let us know! You can share this directly with us at community@wellstar.org.

GIVE BACK

Thank you! Wellstar has a best-in-class team member giving program because of you. In 2021, Wellstar team members alone raised \$1.2 million to help provide assistance to Wellstar families, fund educational scholarships and so much more. We are seeing an unprecedented need for employee assistance; please visit our [Team Member Giving website](#) to learn more about how you can participate.
