

## Know, Share, Do – Day 5: Build Connections

---

Please use the information below to engage with your team following Day 5 of Leadership Wellstar Week 2022. The goal of these daily takeaways is to help you lay a strong foundation with your team for future strategy-related conversations.

### KEY INFORMATION LEADERS NEED TO KNOW.

- We will build connections by expanding access to world-class care when, where and how consumers need it.
- Through our strategy, Wellstar will expand convenient access to care by adding new, digitally enabled “front doors” like virtual care, remote monitoring or in-home care.
- We’ll also ensure that we are growing our clinical service lines in a smart way. That means optimizing our services based on what’s needed in each of the communities we serve.
- Teams across Wellstar all play an important role in building these connections, including creating exceptional experiences that encourage more consumers to seek care and services with us.

### INFORMATION LEADERS NEED TO SHARE WITH THEIR TEAMS.

- During your standing meetings and interactions with team members, share how your own team might grow and evolve in the coming year – whether in adding new team members or elevating your capabilities.
- Reflect on the [“Leading With a Growth Mindset” LinkedIn Learning module](#) provided, and share the [“Growth Mindset vs. Fixed Mindset” TED talk](#) with your team to foster a sense of learning and growth that will help build meaningful connections with consumers and colleagues.

### TAKE ACTION ON THESE IMPORTANT ITEMS.

- Share your thoughts with us in the survey questions throughout [LeadershipWellstar.com](https://LeadershipWellstar.com) to help us tailor future strategy and leader development content to meet your needs and interests.
- Register for the [Virtual Reality Leadership Training](#) taking place May 18 or 19, brought to you by Catalyst by Wellstar, Leadership Development and Moth+Flame.
